

Joy Debnath

Full Stack Developer (Frontend-Focused) | Next.js | React.js | TypeScript

Phone: 01740-036543 | Email: developerjoydebnath@gmail.com | GitHub: github.com/developerjoydebnath

Address: Road No 4, Block-D, Banasree, Dhaka-1219, Bangladesh

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 2+ years of professional experience building scalable, high-performance web applications using Next.js, React.js, and TypeScript. Proven track record delivering complex ERP, CRM, ISP Billing, and government-scale systems. Strong expertise in REST API integration, role-based access control, real-time data (Socket.io), map visualizations, and performance optimization. Experienced in Agile collaboration with cross-functional teams, working with Git for version control, and translating Figma designs into pixel-perfect, responsive UIs.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, PHP

Frontend Frameworks & Libraries: React.js, Next.js, Redux, RTK Query, React Query, Zustand, SWR, Axios, GraphQL

UI & Styling: Tailwind CSS, Bootstrap, Material UI, Chakra UI, ShadCN UI, Framer Motion, GSAP

Backend Technologies: Node.js, Express.js, NestJS, Laravel, Prisma ORM, Socket.io

Databases: MongoDB, MySQL, PostgreSQL, Firebase, Supabase

Tools & Practices: Git, GitHub, Figma, REST API integration, Agile, Linux, Windows

WORK EXPERIENCE

Frontend Developer (Part-Time) | Afritech54 | USA (Remote)

July 2025 – February 2026

- Developed and maintained modern frontend applications using React.js and Next.js for a US-based client.
- Collaborated with international cross-functional teams to translate business requirements into scalable UI solutions.
- Built reusable component libraries ensuring consistent UI/UX across multiple projects.
- Optimized frontend performance, improving application load times and responsiveness.

Full Stack Developer – Frontend Lead | Plexus Cloud | Dhaka, Bangladesh

January 2024 – Present

EDCNMS – Government Network Monitoring System (Client: DoICT)

Stack: Next.js, Tailwind CSS, ShadCN UI, SWR, Axios, Laravel, MySQL, Redis, Socket.io

- Independently designed and developed the entire frontend for a nationwide NMS platform serving 100,000+ institutions.
- Contributed to approximately 50% of backend development in close collaboration with the backend team.
- Implemented a permission-based access control system with 10 distinct user roles.
- Built core modules: institution internet management, ticketing system, and admin/employee hierarchy management.
- Integrated real-time updates via Socket.io and live/historical bandwidth graphs for large-scale operational data.
- Delivered seamless report generation and optimized performance for high-volume data workflows.

ERP System

- Enhanced an existing enterprise-level ERP system; optimized frontend for faster load times and smoother UX.
- Implemented new modules based on business requirements and maintained role-based access control.
- Worked extensively with map integrations to visualize operational and location-based data.

ISP Billing System

- Designed and developed a comprehensive ISP Billing System with role-based and commission-based workflows.
- Integrated Mikrotik router APIs for real-time user activation and deactivation.
- Built dashboards for managing corporate clients, agents, sub-agents, and commission calculations.

Transmission & Routing System

- Designed a map-based transmission routing system connecting branches and end-users.
- Implemented multi-layer map visualizations for route planning and monitoring.
- Delivered clean, interactive, data-driven UI components improving overall system usability.

PROJECTS

EDCNMS – Network Monitoring System (Government)

Tech Stack: Next.js, Tailwind CSS, ShadCN UI, Laravel, MySQL, Socket.io, Redis

URL: Internal Government Platform

- Nationwide NMS for DoICT providing free internet to 100,000+ institutions across Bangladesh.
- Full frontend ownership + 50% backend contribution; 10-role permission system.

Horizon Welfare – Welfare Organization Platform

Tech Stack: Next.js, TypeScript, Tailwind CSS, ShadCN UI, NextAuth, Laravel, MySQL

URL: horizonwelfare.org

- Full stack platform with authentication, role-based access control, and dynamic CMS.
- Delivered secure, accessible UI with scalable backend integration.

Elite Match Africa & Model Match Africa – Matchmaking Platform

Tech Stack: Next.js, TypeScript, Tailwind CSS, ShadCN UI, NestJS, MySQL

URL: elitematchafrica.com | modelmatchafrica.com

- Built modern matchmaking platform with admin panel, secure auth, and responsive UI.

Akik Cadcam Prosthetics PMS – Dental Practice Management System

Tech Stack: React.js, TypeScript, Tailwind CSS, Inertia, Laravel

URL: pms.akikcadcamprosthetics.com

- Patient, appointment, prescription, and treatment record management system.
- Built income/expense tracking dashboards with strong focus on usability.

Numan Trading Corporation – Corporate Trading Platform

Tech Stack: React.js, TypeScript, Tailwind CSS, ShadCN UI, Laravel, MySQL

URL: numantrading.com

- Full stack corporate trading site with product management and scalable architecture.

Sidratulnoor – E-Commerce Platform

Tech Stack: React.js, TypeScript, Tailwind CSS, ShadCN UI, GoLang, PostgreSQL

URL: sidratulnoor.com

- Single-vendor eCommerce site with clean, responsive UI for product browsing and ordering.

StackRover Agency Portfolio

Tech Stack: Next.js, TypeScript, Tailwind CSS, ShadCN UI

URL: stackrover-landing-v1.vercel.app

- Modern agency landing page with animations and performance optimization.

EDUCATION

B.Sc. in Physics (Honours)

Tongi Government College, Tongi, Gazipur | Final Year (Expected Graduation: 2025)
